

Hosta of the Year 2017

The American Hosta Growers Association has named 'Brother Stefan' as the 2017 Hosta of the Year. This spectacular specimen is a medium-large plant with large, heavily corrugated, gold leaves with wide, dark green margins. Flowers are near white.

'Brother Stefan' is one of well-known hybridizer Olga Petryszyn's best introductions. It makes a great companion to similarly sized and corrugated, solid blue hostas such as 'Love Pat' or 'Blueberry Muffins'. Or consider surrounding 'Brother Stefan' with a mass of a smaller blue hosta such as 'Deep Blue Sea' or 'Fragrant Blue'.
